

11 January 1956

MEMORANDUM FOR: Director of Training

SUBJECT: Proposals on Communism Training

1. In considering changes in our Communism curriculum and arrangements for handling it, we are faced with two separate but closely related problems: training content, and organization. These can be treated separately or jointly. In the attached paper I have chosen to discuss them together, and present proposals concerning both curriculum content and administrative arrangements for your consideration.

2. This paper has been discussed with [redacted] as well as with [redacted] and with members of the Basic School. [redacted] has stated that he agrees with the case as presented, and does not disagree with the administrative action recommended if we assume the continuation of the present four-School organization of OTR. He feels, however, that it raises broader organizational questions which should be discussed before a final decision is reached.

[redacted]

Chief, Basic School

Attachment:

Memorandum to D/TR - "Instruction Concerning Communism and Related Subjects"
